Herbicide Branch

Subject: Submission of 2020 Illinois field study report to support the 2020 registration of XtendiMax® With VaporGrip® Technology (Alternate Brand Name: M1768 Herbicide), EPA Reg. No. 264-RERN

Dear Emily Schmid,

In a meeting between EPA and Bayer CropScience LP (Bayer) on July 29, 2020, Bayer indicated there would be a forthcoming study that was conducted during the summer of 2020 in Illinois to support a proposed mitigation mandating the use of the buffering agent VaporGrip® Xtra (MON 51817) as a tank mix with all applications of XtendiMax® With VaporGrip® Technology. Thus, in support of the 2020 registration of XtendiMax® With VaporGrip® Technology, Bayer herein provides the report from that 2020 Illinois study. With this submission, there are now a total of 21 volatility studies with VaporGrip Xtra that Bayer has submitted to EPA in support of the XtendiMax registration.

This application is being submitted electronically and contains the following documents:

- This cover letter
- Application for Pesticide Registration – EPA Form 8570-1
- Public Data Matrix (8570-35)
- Agency Data Matrix (8570-35)
- Transmittal Document
- *Report:* Off-target Movement Assessment of a Spray Solution Containing MON 76980 + MON 79789 + MON 51817 + Intact™ – Illinois; MRID No. **51256101**
